

Standards

Options for data sharing formats include:

- a Clinical Document Architecture model based upon IHE's Cross-Enterprise Document Sharing (XDS) and Continuity of Care Document (CCD)
- HL7 Version 2
- a unifying web services interface based upon the Healthcare Services Specification Project (HSSP)

Our active contribution to Data Retrieval and Update standards:

Standards Development Organization (SDO) Standards Document Reference Object Management Group (OMG) Retrieve, Locate and Update Service (RLUS) - submitter Integrating the Healthcare Enterprise (IHE) Patient Care Coordination (PCC) Domain Profile (vol.1) Transactions (vol.2) Immunization Content Profile (IC) - coauthor American Immunization Registry Association (AIRA) Implementation Guide for Immunization Registries using HL7 Version 2.3.1 - workgroup cochair
